Green Space Minutes 9.2.15

Park/Green Space master plan discussed:

George Carpenter is reviewing the parks master plan shell in hopes of finding help from a professional land scape architect or college student project to aid us in creating a workable plan (ie; no funding).

Doug Dresie is participating in the now forming Clermont County Parks Alliance. Its intent is to catalog, improve and expand parks throughout the county. Also, share best practices and expertise; working cooperatively to improve funding both public and private.

Doug also handed out fact sheets on conservation easements and land trusts. For those interested email (loroller@fuse.net) me for links to these write ups.

Alyson Yates, a Pierce resident, presented her case for conducting exercise classes in our park open to all ages (prefer 18 up). She is a certified instructor and insured. The classes would meet weekly over four weeks at \$10 per. The township would receive a percentage of fees for advertising the classes on the Pierce Facebook page. The committee considers it a viable plan to test citizen interest. The committee will present proposal to the trustees for limited approval.

The committee has scheduled an invasives removal party for Saturday, 10.17.15 from 9-noon. Due to logistics the chipping portion has been cancelled. Worker bees still required.
