

REQUEST FOR PROPOSALS (RFP) – 2024 Solar & Wind Facility Text & Regulatory Amendments

Pierce Township is seeking qualified firms to submit proposals to draft Text and Regulatory Amendments concerning Solar and Wind Facilities at the Residential, Commercial and Utility Scales, respectively. This project aims to comply with all Federal, State and Local Regulations regarding the aforementioned facilities while ensuring that the facilities are sited in accordance with the vision of residents.

I. PROJECT OVERVIEW

The primary objective of this project is to draft effective regulations concerning Solar and Wind Facilities in the Township. The project's scope includes, but is not limited to:

- Review existing Township regulations, the 2023 Pierce Township Land Use Plan, adopted Township policy documents and solicit input
- Conducting an assessment of the Township to determine ideal siting locations for commercial and utility scale solar and wind facilities
- Prepare mapping delineating locations and parcels to site and restrict facilities
- Prepare regulatory language and documents to be included in Township Zoning, Township Resolutions and County as appropriate to regulate residential, commercial and utility scale (Small-Scale <50 MW and Large-Scale facilities >50 MW), as applicable
- Provide feedback on the economic impact(s) associated with specific facilities
- Ensuring compliance with all relevant local, state, and federal regulations.
- Collaborating with our organization and relevant stakeholders throughout the project
- Include amended text and document management as applicable
